Solid & Grid collection 03 - 23

Oak collection 24 - 42

Walnut collection 43 - 61

Reclaimed Wood collection 62 - 76

In designing our Solid & Grid collection, we set out to create a style-defining, recurring graphical structure for furniture and home accessories. We were aiming for a pattern that looks light and elegant while offering sturdy durability. And we achieved this with a diagonally cut grid made of steel. After we came up with our first models featuring diagonal slits, we designed several solid versions as well.

Currently, the Solid & Grid collection includes various wall shelves, side tables, bookends and (decorative) bowls.

Solid 01 Wall Shelf

weld & co

WRS01

This solid wall shelf is perfect for storage, keeping useful items handy, or displaying treasured mementos.

The flat surface of the Solid 01 Wall Shelf shows off the color to its full advantage. So one or more of these shelves can be arranged to create colorful decorative accents in any part of the home.

The weld & co Reclaimed Wood collection aims to preserve old materials by using them to make something new. Naturally aged wood is used to create furniture and home accessories that also feature elegant components made of powder-coated steel. These two elements unite to produce an attractive aesthetic that makes a clear statement. Natural materials weather and age with time, resulting in a completely new look and feel. When combined with robust new materials, they create furniture which is truly timeless.

Currently, the Reclaimed Wood collection includes a key holder, picture ledges, wall shelves, benches, coat racks and clothes racks.

Reclaimed Wood 01 Key Holder
